SUMMARY

Web Developer with skills in multiple programming languages, and a background in engineering and creative problem solving. Three years of professional experience as an adept communicator and skilled project manager. Fast learner, self-starter, and problem solver. Excited to leverage engineering experience in a web developer role to build applications and see projects through to success.

SKILLS

JavaScript | React | HTML | CSS | Java | MongoDB | REST API | CSS Frameworks | Responsive Design | jQuery | Node.js | Express.js | Git | Asynchronous Processes | Professional presentations | Technical writing | Customer interaction | Collaboration | Project Management

PROJECTS

DigitalClass (Team of 5) | Responsive Online Quiz creation and sharing service for virtual instruction
