SUMMARY

Web Developer with newly developed skills in multiple programming languages and 3 years of professional experience. These skills, coupled with an engineering background, allow for proficiently developing effective algorithms to solve complex problems. Adept communicator, and skilled in project management. Fast learner, self-starter, and problem solver. Excited to leverage engineering experience in a web developer role to build applications and see projects through to success.

SKILLS

JavaScript | React.js | HTML | CSS | CSS Frameworks | jQuery | Git | Node.js | Express.js | MySQL | MongoDB | APIs
